

So You're Ready To Consign With

1. If at possible, we'd love accompanying camera-ready (300dpi or larger) product photos. We can take these as jpg or tiff. We'd love it if these were shot against a white background, but we'll take what you have. If you don't have photos, don't fret; we can shoot them.
2. Read and sign the Consignment Agreement and please include it in with your product.
3. Please complete an Inventory Listing. There's a form attached here. You don't have to use our form, you can just write this out on your own paper; please just include all the info from the form.
4. Please be certain the contact information you give us is correct. We will only write checks to the Payee Name listed on the Inventory Listing. If your business is the Payee, please list it as such. If your account is in your own name, please list your own name, instead.

If you want to be paid by PayPal, please be certain your Pay To email address is listed correctly. That is the address we will use when sending payment.

THANK YOU!
